

# LA-97B PP anti-tamper UHF RFID tag

## Introduction

- Based on independent intellectual property development, adapt tag to work with global frequency range
- Ultra-high read rate, high sensitivity of tag identification
- Good performance of Anti-counterfeiting, transfer tamper proof, UV ultraviolet resistance design
- Application: Widely used in manufacture and logistic supply chain, digital inventory, retail, fixed asset management, items anti-counterfeit and traceability. Products look, dimension, printing could be customized. Disposable, Prevent Heat Transfer, Chemical transfer, Knife transfer, Anti-UV, No residual of removal, support indoor & outdoor application

## Specification

| Specification  |   |
|--|---|
| Model No   | LA-97B  |
| <b>Performance Index</b>   |   |
| Protocol   | EPC CLASS1 Gen 2 / ISO 18000-6C   |
| Chip   | ALIEN Higgs3  |
| Working frequency  | 860—960MHZ  |
| Storage capacity   | TID: 96bit EPC: 128bit User: 128bit Reserve: 32bit access Password and 32bit kill password  |
| Dimension  | 110*40mm(or custom)   |
| Work mode  | Read and write  |
| Reading times  | > 100,000 times   |
| Working temperature  | -25℃~+75℃   |
| Storage temperature  | 0℃~25℃  |
| Material   | PP  |
| Substrate base   | Polyester Film  |
| Antenna  | Aluminum etching  |
| Surface  | Waterproof PET  |
| Appearance characteristics   | Transparent, or single or double side color printing  |
| Product features   | Disposable, Prevent Heat Transfer, Chemical transfer, Knife transfer, Anti-UV, No residual of removal, support indoor & outdoor application |
| Package  | Anti-static PE + Foam stuff + Anti-static Bag   |
