

VT-117 Container tag

- 1、Based on the development of independent intellectual property rights, the label adapts to the global frequency band work setting
- 2、Linear polarization design in a particular direction with high read rate, label recognition sensitivity
- 3、high security, with a unique combination of ball identification code (TID code)
- 4、Applicable to customs logistics container

specifition

Specifition	
Item	VT-117
procotol	EPC CLASS1 Gen 2/ISO 18000-6C
Chip	Impinj M4 or ALIEN H4 chip
Work frequency	860—960MHZ
Capacity	96bit
size	115* Ø24mm
Use Mode	Only read in Use (Before use, can not be read or after damage)
Use Time	One time
Operating temperature	-20℃~+50℃
storage temperature	-40℃~+100℃
weight	60g
Installation	Locked
